Capabilities Statement

Hello, and thank you for taking the time to evaluate All Safe Industries, Inc. Established in 1996, we began by offering the most basic safety products such as safety glasses, gloves and hard hats. As our experience grew, we focused on more technical safety equipment items like gas detection, fall protection and ventilation equipment. Today our expertise continues to expand to include a wide array of Domestic Preparedness Equipment for our nation's First Responders and First Receivers at the Federal, State and Local levels.

In addition, we've taken the steps necessary to maximize your most valuable commodity, *time*. We make it simple to research and obtain the safety products and equipment that you require either from our website or by contacting any of our knowledgeable sales representatives. Once you determine what you need, we make it easy to purchase these items through our GSA Schedule which includes over 2500 items. Our broad product offering will allow you to utilize one vendor and one purchase order to acquire everything you need in one step.

All Safe Industries is a Veteran-Owned Business. Our dedication to customer service and attention to detail is second-to-none. We look forward to working with you.
